

### **Battery Recycling**

**-Batteries contain corrosive materials and heavy metals that are harmful to the environment.**

### **Lightbulb Recycling**

**-It is against the law to put fluorescent light bulbs in your trash or recycle bin. Fluorescent bulbs contain mercury which is harmful to your health.**

### **Printer Cartridge Recycling**

**-Recycle these and give back to the About Face Organization. This organization helps children born with facial abnormalities and cleft palate.**

We accept batteries, lightbulbs, and printer cartridges year round. However, there are a few rules to follow when recycling these items.

- All batteries **MUST** have both terminals taped to prevent fire hazard.
- All lightbulbs **MUST** be boxed or packaged to prevent breakage.
- You must call before dropping these items off.

Please call us at 812-663-0960.
